Dear Sir/Madam,

REVISION AND REVALIDATION OF PAR/10057/01 Revision C

This letter is to confirm that Eclipse UK have commissioned Kiwa Fire Safety Compliance to perform an engineering review of IFC report PAR/10057/01 (currently Revision C), with a view to revalidation. The review will evaluate the report (and supporting evidence) to the latest standards and protocols for Technical assessment Reports; which may incur changes to any future scope of approval by IFC. Eclipse UK have also asked IFC to consider a number of variations/additional evidence.

Analysis of the report/evidence is currently underway but, due to the extent of work involved, Kiwa Fire Safety Compliance is not currently in a position to complete the formal engineering review; nor to issue a revised report.

The validity of Report PAR/10057/01 Revision C expired at the end of May 2023.

This letter is provided to give clarity on door assemblies covered by this Field of Application Report at the time of purchase but that are to be installed/commissioned after the expiry date of Revision C of the report.

In order to cover a period to allow the installation of these assemblies, IFC are extending the validity of PAR/10057/01 Revision C until 30 November 2023, for assemblies that have been sold prior to 1 June 2023. This letter is provided on the basis that all new sales shall be fully in accordance with the IFC Field of Application Report PAR/10057/01 Revision D.

Please note that customers should be made aware of these restrictions, keep proof of purchase and make their Building Control Inspector aware of the conditions of this Letter of Comfort prior to installation to avoid any issues.

The letter should not, in isolation, be used to demonstrate compliance with Building Regulations or contractual obligations; and shall only be used in conjunction with a full copy of PAR/10057/01 Revision C.

We trust that this letter is of assistance at this time.

Yours faithfully

A handwritten signature in black ink, appearing to read "Will Lightfoot".

Will Lightfoot
